Extra, extra! Read all about it!

> A shawarma joint — I love the endearing nature of the word joint — is a lonely place. It isn't somewhere one tends to take a group of friends, or family, or a date. One enters alone and exits alone, speaking only to the fellow at the register. And in that sense, it is very equalizing.

> The idea is that 1 is no pain at all and 10 is the worst pain imaginable. But what is the worst pain you can imagine? Losing a limb probably hurts a lot, must be a 10 right? But wait, surely losing two would be twice as bad. There's no real limit.
